

## Developing and promotion of osFree supported by teams:

- [The Web Team](#) controls and maintain “face” of osFree project - web services
- [The Build Team](#) establish build environment tools set and build process. Build team also generates weekly builds of osFree.
- [The Boot Team](#) allow to boot osFree system on your computer.
- [The CLI Team](#) design and establish command line interface
- [The Documentation Team](#) maintain documentation. It also controls some content of web pages.

Source code documentation maintained by corresponding team.

## osFree developers (former or/and active) and contributors

|                        |                                                                   |                                                                  |
