

[Q]: How to remove a volume label?

[A]: Mark Lewis (1:3634/12)

i just found that 'label d:[alt-1]' causes the label to be removed...

```
D:\>ver
```

The Operating System/2 Version is 3.00

```
D:\>vol
```

The volume label in drive D is FRED. The Volume Serial Number is A7CD:4415.

```
D:\>label d:^A
```

```
D:\>vol
```

Volume in drive D has no label. The Volume Serial Number is A7CD:4415.

the same thing with

```
D:\>ver
```

4OS2/32 2.51 OS/2 Version is 3.0

except that the ^A doesn't show on the screen...

Warp 3 w/no fixpaks...
