

[Q]: Чем отличается eWorkPlace (eCS 1.1) от XWorkPlace?

[A]: Eugene Gorbunoff (2:5030/769)

Features present removed

General:

|  |   |   |
|--|---|---|
| Icon replacements                                    |   | X |
| Object page<br>Has been merged with the "Icon" page. | X |   |
| More system sounds                                   | X |   |
| Disable default menu items individually              | X |   |

Folder features:

|  |   |   |
|--|---|---|
| Configurable context menus via config folder                           | X |   |
| Select by name   | X |   |
| Copy Filename  | X |   |
| Move "refresh now" to main context menu                                |   | X |
| Display "small icons" etc. in "View" submenu                           | X |   |
| New "Create another" with positioning                                  | X |   |
| Folder status bars<br>configurable codes (status bars page 2)          | X | X |
| Folder content menus<br>Will remain in XCenter object buttons however. |   | X |
| Quick-open folders   |   | X |
| Full path in title   | X |   |
| Snap to grid   |   | X |
| Folder hotkeys   | X |   |
| Display folder hotkeys in context menus                                | X |   |
| Auto-scrolling of tree views<br>(now enabled by default)               | X |   |
| Extended folder sorting  | X |   |

This is totally transparent to the user and isn't any more complicated than the standard folder sorting.

|  |   |   |
|--|---|---|
| Replacement folder refresh<br>Enabled by default.  | X |   |
| Folder default view override<br>(no longer make folders open in the same view as the parent) | X |   |
| Folder default documents   |   | X |
| Replace "File exists"  | X |   |
| Turbo folders  |   | X |

Disk features:

|   |   |   |
|---|---|---|
| Replace "drive not ready"<br>Has been removed because people are still reporting problems with ZIP drives and such. |   | X |
| Replace "Details" page  | X |   |

Data file features:

|   |   |   |
|---|---|---|
| Extended associations<br>Has been removed for now because I was unable to get a decent default setup ready in time. Will come back if I manage to do this before eCS 1.1. |   | X |
| Replacement "File" page<br>Replaces three file pages into one.  | X |   |
| New second "File" page which lists EAs  |   | X |
| File attributes in context menu   | X |   |

Desktop features

|   |   |  |
|---|---|--|
| Remove "Sort" and "Arrange" for desktop<br>As opposed to all the other menu items, this should be disabled for the desktop per default. People hit "Sort" too easily for the desktop. | X |  |
|---|---|--|

Program file features

|  |  |   |
|--|--|---|
| New settings pages "Module", "Resources" ... |  | X |
|--|--|---|

Most useful for programmers, I guess.

Hook features:

|   |   |   |
|---|---|---|
| Pager (virtual desktops)  | X |   |
| Sliding focus   |   | X |
| Sliding menus<br>(I propose to leave this in to make menus behave like with Win95.) | X |   |
| Mouse button 3 features   | X |   |
| Auto-hide mouse   |   | X |
| Move ptr to default button  |   | X |
| Object hotkeys<br>Win95 has this built in, so we should have this also.             | X |   |

XShutdown, restart Desktop X Shutdown folder X

Startup features:

|                            |   |   |
|----------------------------|---|---|
| Replacement startup folder |   | X |
| Desktop start logos        |   | X |
| Extended archiving         | X |   |
| Enable NumLock on startup  | X |   |
