

[Q]: Палитра для CGA

[A]: Viatcheslav Odintsov (2:5020/181)

На CGA 640x200 единственными не утомляющими глаза комбинациями цветов будут "0 0 0" (черный), "255 255 255" (белый) и "128 128 128" (равномерная штриховка). Причем последняя комбинация реально годится только для фона.
